In Remembrance of Prof. Parvaneh Vossough

Today marks the 10th anniversary of the decease of Prof. Parvaneh Vossough who was the founder of pediatric oncology in Iran. She was the chair of board of trustees of MAHAK and voluntarily dedicated her life to help children with cancer.

Since the first day of MAHAK Hospital's operation to the last days of her precious life, she continued working for cancer-stricken children. Professor Vossough initiated various specified procedures and activities to provide the best treatment services to children with cancer.

Her memory always lives on since her name and did is a great legacy of humanity that must remain alive forever in the memory of our people.
