## MAHAK Gold September 2024

### Childhood Cancer Awareness Month

As we commemorate Childhood Cancer Awareness Month in September 2024, it is imperative to acknowledge the significant impact that cancer has on children and their families, regardless of age, gender, or socioeconomic status. At MAHAK, our primary mission is to ensure that every child dealing with cancer receives optimal care and support.

Gold September serves as a great platform for raising public awareness about the childhood cancer, its challenges, as well as the significance of early detection, treatment, and comprehensive care. It also works as a reminder for us all to reunite and recognize the importance of solidarity in delivering high-quality therapeutic and supportive services for children suffering from cancer and their families.

Similar to past years, and as a proud member of Childhood Cancer International (CCI), and International Society of Pediatric Oncology (SIOP), MAHAK has designed and executed a series of initiatives in alignment with the global theme, which will be elaborated upon in the following sections. These initiatives aim to raise awareness and foster public engagement, both of which have been successfully achieved.

Despite the ongoing challenges posed by sanctions on pediatric cancer care in Iran, MAHAK remains steadfast and committed not only to provide the highest standard of care for children and their families, but also to raise awareness on both national and international extent about childhood cancer. We consistently seek to collaborate with local and global partners to push boundaries further towards a world free from cancer for children.
